

Ready to Work
Anytime, Anywhere

Microsoft 365 is the cloud-based Microsoft service that allows your organization to communicate, collaborate, and connect.

Powerhouse Productivity Tool

ROBUST EMAIL

Store up to 50GB per user for no additional charge. Access email from any device with an internet connection using Microsoft webmail.

AUTOMATIC UPDATES

Always have the latest version of Microsoft Apps (i.e., Word, Excel, & PowerPoint). Microsoft Apps automatically update monthly with the latest features, keeping all users on the same version and eliminating compatibility issues. Never worry about software licensing and renewals!

MOBILITY

Access data anywhere, anytime. Instantly access files, photos, or email whenever or wherever you need it from the cloud.

FREE TECH SUPPORT

Need help? Get access to 24/7 online support from Microsoft's 365 experts.

Microsoft 365 is built for organizations – large & small.

Optional enhanced security features protect your data. The administrative interface allows you to manage accounts.

Because Microsoft 365 provides reliable service and value for our clients, many of Brooks Jeffrey's hosted email accounts are upgrading to this dynamic solution.

Upgrade your email before September 30, 2022 and receive a FREE consultation with a CJIS certified tech.

If email accounts are included with your website hosting package, a Brooks Jeffrey account representative will contact you soon to discuss your specific conversion plan and provide options for migrating your current email messages and address book to Microsoft 365.

Available for a limited time.

Get Microsoft 365 Email

Starting at \$4 per month / per user

Secure Webmail starting at \$6 per month / per user
